Graduated from the electrical apprentice program 2022-2022

About Me

I'm a computer science nerd with a strong interest in technology and innovation. I also work in the railroad industry, applying my technical skills to improve operations. In my free time, I run an Amazon e-commerce business, combining my computer science knowledge with entrepreneurship. I love talking to people and getting to know who they are and just having genuine conversations with people. Which I look for in the food industry.
